RE: Approval of Closure Description Document for Interim Status RCRA Treatment Unit 35 (Pondcrete/Saltcrete Reprocessing Facility) located in Tent 10 on the 904 Pad at the Rocky Flats Environmental Technology Site (RFETS);

Dear Mr. Brailsford and Mr. Legare:

The Colorado Department of Public Health and Environment, Hazardous Materials and Waste Management Division (the "Division") has received your notice of intent to partially close interim status RCRA Treatment Unit 35 and has reviewed the *Closure Description Document (CDD) for Partial Closure of RCRA Unit 35 Pondcrete/Saltcrete Reprocessing Facility, Revision 1*. The CDD for RCRA Unit 35 (Revision 1) was received by the Division on November 22, 2000. The Division has also reviewed additional closure information received on January 11, 2001 via e-mail from Wayne Moe of Kaiser-Hill. In accordance with Section B.3 of the approved *RCRA Closure Plan for Interim Status Units at RFETS*, the Division hereby approves the CDD for RCRA Unit 35 (Revision 1). Since Unit 35 is located within a beryllium contaminated area, any equipment, waste, or other material removed from the area must be properly characterized for possible beryllium contamination and managed appropriately. In accordance with 6 CCR 1007-3, Section 265.113(b) and Section B.4.b of the approved *RCRA Closure Plan for Interim Status Units at RFETS*, RFETS must complete the required closure activities identified in the approved CDD for Unit 35 within 180 days after the approval date of February 5, 2001. If you have any questions concerning these matters, please contact James Hindman of my staff at (303) 692-3345.

Sincerely,

Joe Schieffelin, Unit Leader
Hazardous Waste Compliance Unit
